

Process Visuals: Knowledge Booth

booth of knowledge / inspiration ^{rather than using google}

→ shelves
→ screens etc

inside can be
filled however
each station
wants to fill it

Shape → maybe
doors can be
in divided

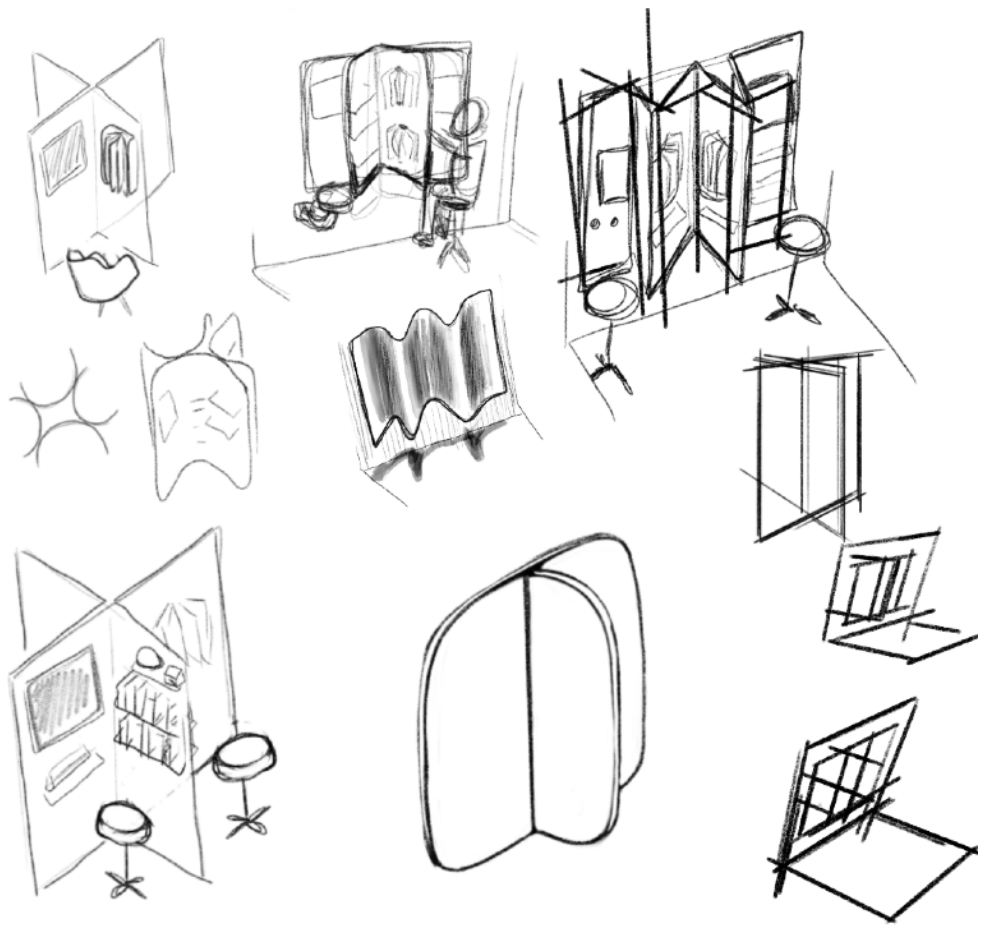

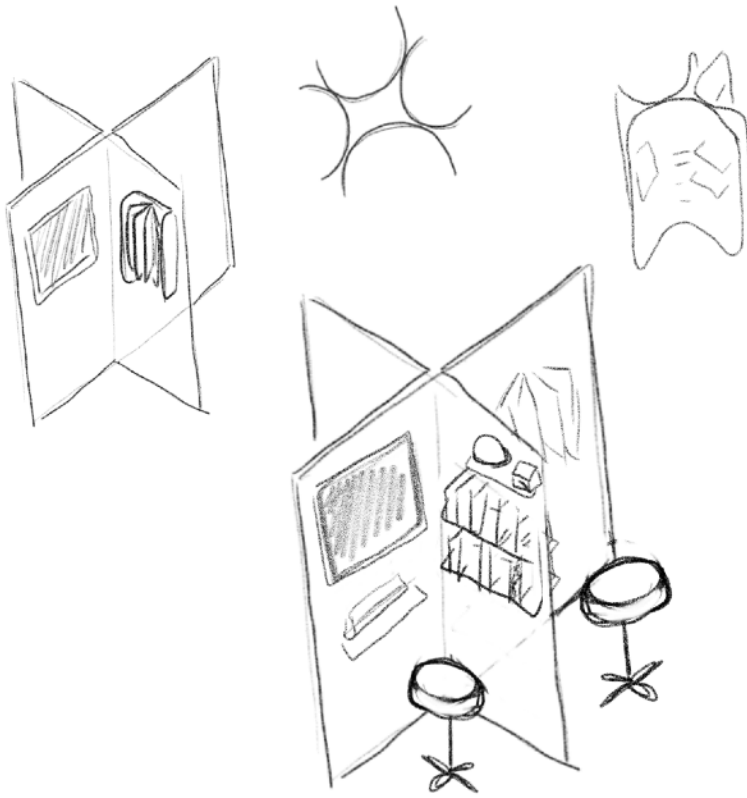

→ Idea for info
but just
smaller

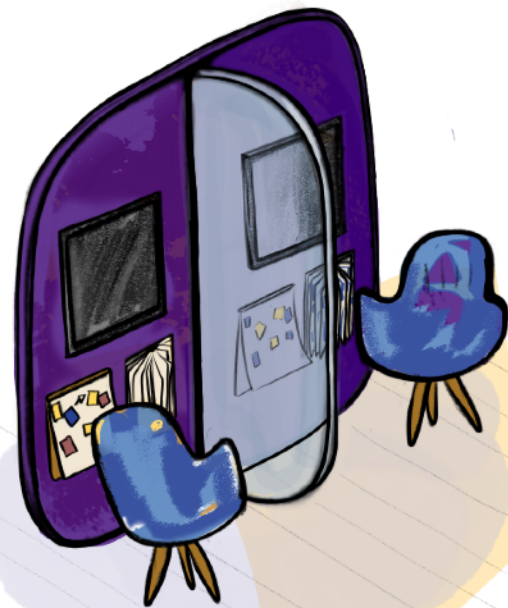

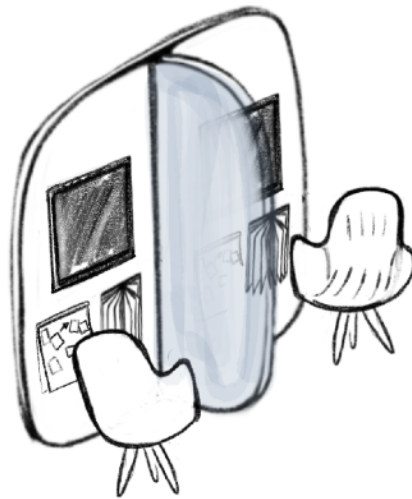

After discussing the ideas with the group, they felt it should be more open to be used for more people at the same time, so a new design was necessary.

example:
voting
booths

Open
but
private

Trying to add
the object to
the spaces..
